

# PRE-PUNCHED ROUND HOLE PVC CARDS

## FOR EASY IDENTIFICATION

Evolis pre-punched blank cards are the ideal support for outstanding printouts. Their flat surface ensures flawless moves under the print head (minimizing the risk of damage) and printouts with vivid colours and well-defined barcodes.

### ADVANTAGES

These cards can be used in several cases to identify your visitors or your business partners by a simple and cost-effective way. For instance, in a punctual event, your visitors can wear their badges with a clip or a lanyard, and then be identified without a badge holder.

Tested and validated by Evolis R&D and Quality departments, these consumables bring you printing quality and reliability.

### GENERAL SPECIFICATIONS

### INSTRUCTIONS FOR USE

In order to optimize the printing quality and card durability:

- Do not use cards that have been damaged, folded or dropped on the floor.
- Do not touch the printable surface of the cards in order to preserve print quality.
- Do not use in high temperature conditions. Do not place near heat sources or open flames (degradation above 60°C). Avoid thermal shock.
- Avoid dishwasher and chemicals, wash your printed cards using clean cold water.
